TO: All Parties Division 1 Substitute Water Supply Plan Notification List

Re: Notice of Request for a Substitute Water Supply Plan for Town Center Metropolitan District pursuant to C.R.S. 37-92-308(5) from March 1, 2020 through February 28, 2021

Town Center Metropolitan District (TCMD) is requesting approval of a Substitute Water Supply Plan (SWSP) pursuant to §37-92-308(5) to replace depletions to First Creek from pumping one well and an infiltration gallery on a tributary to First Creek, tributary to the South Platte River in former Water District 2, Division 1. The water will be used to replace evaporation from two proposed lined ponds. A copy of the proposed SWSP is attached to this notice and is also available for download at the following link: <http://www.d2consultants.com/projects/tcmd-swsp-application>.

1. The parties on the notification list have 35 days after the notice was sent to file comments on the proposed plan. Pursuant to statute, the comments must include any claim of injury or any terms and conditions that should be imposed upon the plan to prevent injury to a party's water rights or decreed conditional water rights and any other information the opposer wishes the State Engineer to consider in reviewing the SWSP request. Send comments for Division 1, to the Division of Water Resources, 1313 Sherman Street, Room 818, Denver, Colorado, 80203, to the attention of Joanna Williams. Comments may also be sent via email to Joanna.williams@state.co.us with a copy to drago@d2consultants.com.
2. The State Engineer shall serve a copy of the decision on all parties to the application by email, or if a party has elected, by first-class mail.
3. Any appeal of the State Engineer's decision must be made to the applicable division water judge within thirty (30) days of the decision.

Sincerely,
D2 Consultants

Daria Drago, PE, PMP
